## ARC-BC Presentations

This year, all grade 5 students in Delta are engaging in learning about digital accessibility. This past week was our turn. Our grade 5 students took part in a workshop with Victoria Woelders from ARC-BC, who had the opportunity to teach our students about varying book formats, including Braille, as well as how students consume digital content. Students learned about digital tools such as Read & Write and Microsoft Immersive Reader, that help individuals with reading difficulties. Students also learned about creating accessible digital documents and learned about the importance of font, colour contrast, text-to-speech and alternative text. This was an excellent opportunity to learn about more ways that we can be inclusive.

## Families Experiencing Hardship

If any families are requiring support, please reach out to our school office in confidence. Ms. Doukas and Mrs. Boyd welcome any requests for support.
